CITY OF GLASGOW COLLEGE

International Digital Education Symposium 2017

We are hosting our second International Education Symposium on Tuesday 3 October 2017 at our award winning City Campus

Event Outline

With a focus this year on digital learning and the student experience, the Symposium will bring together policy makers, senior practitioners, industry leaders and academics from across sectors. We will explore the impact of the unprecedented pace of technological change on learning and the future employability of our students.

Key issues for debate
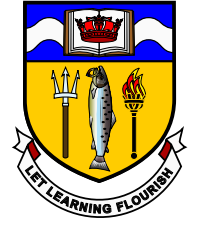

Are we addressing the skills needs of industry?

Digital transformation - how do we keep pace?

How do we rise to the challenge and deliver the most valuable student experience?

What does a future-facing curriculum look like?
