Recommendations

The Finance & Physical Resources Committee is asked to approve the proposed minimum course fee rate detailed in the paper.

1. Purpose of report

The purpose of this report is to seek the Committee's approval for 2019/20 course fees.

2. Context

The table below sets out the proposed basis for calculating the College's course fees for the SFC fundable activity 2019/20 academic year. The Vice Principal Corporate Development & Innovation will determine the course fees for all full cost commercial activity, part time international activity and international partnership activity.

The Committee should note:

- That the Scottish Parliament has abolished fees for students studying on **eligible** full-time further education courses (i.e. below HNC/D level).
- The vast majority of full-time HE students (HNC/D) will have their fees paid on their behalf by the Students' Awards Agency for Scotland (SAAS).
- The Board cannot set the fees for full-time HE, as these are set nationally and have been frozen at £1,285 since 2009.
- The Board has more flexibility in terms of setting the level of part-time fees.

SFC issues annually a national fee waiver policy whereby a wide range of disadvantaged people need not pay part-time course fees. The College fee waiver policy complies with the SFC national policy.

The College proposes to increase most part-time fees by approximately 3.0% on the 2018/19 level to recognise the general economic climate, inflation and College costs. This increase reflects the rate of inflation at September 2018, the annual RPI was 3.5% and CPI was 2.2%. SFC has already notified Colleges to plan for a flat cash rate of SFC grant for 2019/20 (there will probably be additional funding National Bargaining) therefore a 3.0% increase in the course fee rates will assist the College budgeted income. This increase has been incorporated in the 2019/20 fees shown in the table below. Within the SFC main grant for 2019/20 full time fees will likely remain at the 2018/19 rates and a small increase to the notional part time fee rates which were used to calculate a target course fee income per College.

The proposed part-time fees shown in the following table are set as a minimum level. Some fees will be set higher depending on, for example, whether additional tuition is provided or class sizes are smaller than average. The Vice Principal Corporate Services will agree variations to the minimum course fee level.

3. Impact and Implications

The increase to the course fee rates should have a positive impact on the College income in 2019/20 and it is anticipated the increase will have a minimal negative impact on student recruitment.
