### 1. Recommendations

- 1.1. To discuss the Strategic Risk Register for risks reported to the Committee, agreeing to recommend any changes to the Board of Management for final approval.
- 1.2. To note the Risk Management Action Plans for risks reported to the Committee.

## **2. Consultation**

- 2.1.** All strategic risk owners were consulted during the latest quarterly review.

## **3. Key Insights**

- 3.1.** Risk management is a key component of the College's internal control and governance arrangements and, as such, is an important responsibility of the Board of Management, the Executive Leadership Team (ELT) and the Senior Management Team (SMT). Final approval of the Strategic Risk register is reserved to the Board and the Audit & Assurance Committee has oversight over the College's risk management approach.
- 3.2.** ELT and SMT members are invited to review the risks they own on a quarterly basis. This is to ensure that the College, our Board and its committees, remain aware of any changes in the risk environment and that our risk management plans remain up-to-date and effective. Committees review the risks that are within their remit and recommend any changes to the Board for final approval.
- 3.3.** The Strategic Risk Register and the MAPs are enclosed for the Committee's consideration and approval of members. Three strategic risks are reported to the Committee. No changes to risk scores are proposed in this review.

## **4. Impact and Implications**

- 4.1.** The effective management, control and mitigation of risks are essential to the College's institutional and financial sustainability, compliance, reputation and future growth.

## Risk Management Action Plans

The Risk						Net Score				Gross Score			Changes		
ID	Risk Title	Owner	Risk/Treatment Description	Developments/Commentary	Appetite	Impact	Prob.	Score	Target	Impact	Prob.	Score	Trend	Updated	History
SR1	Failure to support successful student outcomes and progression	VPSE	<p>There is a risk that the College may fail to support successful student outcomes due to curriculum issues, ineffective industry connections and inadequate articulation arrangements. This could lead to students leaving without completing their courses, resulting in financial and reputational damage, as well as affecting student recruitment.</p> <p>To address this risk, the College employs performance reviews, self-evaluation, and quality cycles to monitor and improve outcomes. Curriculum planning prioritises performance indicators, and a Student Academic Experience Strategy is implemented for a positive learning environment. The College maintains ongoing collaboration with HEIs to foster articulation links for smooth student transitions.</p>	<p>May '25: Student withdrawals have decreased by 7% in 2024-25 and the College is projecting an increase in successful completions. Student mental health and wellbeing continues to be a challenge and an area of priority for the College to support students. Outcomes for care experienced students continue to be unacceptable and disproportionate compared to the rest of the student body. Student Support are progressing a project to put a programme of support and interventions in place for CE students.</p> <p>Jan '25: This is the first academic year with no interruptions to learning and teaching at the College in several years, allowing for the full delivery of classes and an improved student experience as measured by the My Student Experience Survey. The SAES is being progressed.</p>	Hungry	5	2	10	5	5	5	25	↔	May '25	<p>Sept' 24: Score decreased from 20 to 10.</p> <p>Sept '23: SR1 and SR3 merged. Score increased from 5 to 20.</p> <p>Aug '23: Edited for transfer to new MAP. Proposed that SR1 and SR3 be merged.</p> <p>Aug '22: Score decreased from 10 to 5.</p>
SR2	Failure to establish an optimal pedagogical model	VPSE	<p>There is a risk that the learning and teaching approaches at the College may not adequately cater to the needs of learners and stakeholders, including employers. The absence of a robust evidence base for "sector-leading" practices may hinder the effectiveness of the pedagogical model. To address this risk, the College implements several measures built around the Student Academic Experience Strategy which incorporates our City Learning approach which is Active, Blended and Connected. Students are co-creators of their own learning, challenged with real-life problems fostering a dynamic and industry-relevant learning environment. Faculty Operational Planning also plays a vital role in overseeing the execution of these strategies to optimise the pedagogical model.</p>	<p>May '25: TBC. Te are making progress towards a comprehensive ABC pedagogical model. This is embedded in the LTA's operational and strategic priorities for 25/26.</p> <p>Oct 24: The Head of the Learning &amp; Teaching Academy has been appointed and will re-energise work in enhancing the pedagogical model (Active, Blended and Connected) and associated staff development.</p> <p>Aug '24: The College is currently undertaking recruitment for a new Head of the Learning &amp; Teaching Academy. With this appointment, the LTA structure will be completed as planning.</p>	Hungry	5	1	5	5	5	4	20	↔	May '25	<p>Aug '23: Edited for transfer to new MAP.</p>

SR4	Failure of the College's duty of care to students	VPSE	<p>There is a risk that the College may fail in its statutory duty of care to students in the following areas: Safeguarding (Lead: DSE); Corporate Parenting (Lead: DSE); PVG Scheme/Disclosure (Lead: VPPCS); and Prevent (Lead: ADGR).</p> <p>To mitigate this risk, the College has the policies, procedures and designated leads in place for each duty. Regular training, facilitated through Organisational Development, is available for staff to raise awareness and understanding across the College. To fulfil its duties, the College collaborates with a range of external partners, e.g. other colleges, Corporate Parents, forums at a sector/national level and Police Scotland. By working together, they can share best practices and support each other in fulfilling their duty of care effectively.</p>	<p>May '25: New 'Prevent Explained' internal comms have been developed for staff and a session at All Managers with Police Scotland is planned for the end of May. The College has also made one referral recently to Prevent and will continue to work with Police Scotland and multi-agency partners.</p> <p>Sept '25: The Learning, Teaching &amp; Student Experience Committee received the annual report on the College's Corporate Caring Duties for 2023-24 at its meeting in September 2024 from DSE.</p> <p>May '24: The College has been working closely with Police Scotland and Glasgow City Council on a Prevent referral during 2022-23 and 2023-24. Recently, due to positive progress, this case was successfully closed and is now subject to periodic reviews.</p>	Averse	5	2	10	5	5	4	20	↔	May '25	<p>Aug '23: Edited for transfer to new MAP.</p> <p>Oct '20: Score increased from 5 to 10.</p>
SR27	Failure to prepare for the impact and harness the capabilities of AI	VPSE	<p>There is a risk that the College fails to prepare for the negative impact and harness the capabilities of AI. The exponential development of AI could disrupt the College's curriculum, pose a risk to academic integrity, present ethical concerns and result in productivity/performance challenges.</p> <p>To treat this risk, the College has guidance on AI in place for staff and students, which will be continuously reviewed, and will continue to facilitate appropriate training. We will continue to monitor AI developments and engage with key stakeholders to learn and share best practice. In doing so, the College will adopt an open attitude to AI - preparing for the risks and opportunities. Any AI projects within the College will have effective oversight from SMT and reportage to the Board in place.</p>	<p>May '25: We have updated our guidance for staff and students on ethical use of AI, consulted students on their use during class rep meetings and included questions in our Jisc Digital Experience Insights surveys. We will be offering development sessions and engaging colleagues in capturing use cases to highlight existing and embedded good practice. The LTA have also spoken about supporting our College AI literacy to various visiting international delegations so have a coherent approach to share. We are also promoting the Scottish AI Alliance 'Living with AI' course by integrating in Canvas.</p>	Hungry	3	3	9	6	4	4	16	↔	May '25	May '24: New risk added. Net score set at 3 x 3 (9).
