

Inclusive Support for Students with Autism Spectrum Disorder

There are a variety of measures that we can help you with to support your learning while at City of Glasgow College. These support measures will be discussed at your meeting with one of our Learning Support Advisers.

You may have had support at school or other college or university and we can continue this support for you.

You may have your own digital or practical support that you already use, and we will work with you to develop this so that you have a great experience at college.

The support we can offer may include:

- Personal Learning Support Plan (PLSP) designed with your support needs, interventions in place and information for curriculum lecturers to ensure your inclusion in class.
- Assistive Technology such as Brain-in-Hand.
- Tours of the college building for familiarisation before starting college.
- Transition Plans and Links with your school to ensure continuity.
- Recording lessons if appropriate.
- Class Breaks during lessons.
- Safe Spaces in the college to use if required.
- Assessment Arrangements such as Extra Time, Scribe or Separate Accommodation.
- Note-taker in class with you.
- Study Support with a Learning Support Lecturer to help organise and prioritise study.
- Safe Spaces in the college to use if required.
